

29 Shakespeare Road
Bedford 20. 7. 19.

Dear Sir.

Since I saw you I have paid two visits to Germany & Vaihinger came to Leipzig to see me. His teaching has had a very great effect in Germany & has been taken up by workers in various fields such as Law, Religion, Medicine, Physics, Mathematics, Ethics and Education. In fact, he is teaching clouds of German thought!

I have taken your advice & started to write: the Open Court Co. has accepted a series of articles by the Marxist; the Foundation accepted them just before his death. He showed me an article about you which I believe has just appeared from which I gathered that he had some measure of odium philosophicum!

Vaihinger has written to me (the letter was 14 days on the way) asking whether you would accept a copy of the Philosophie des Als Ob. He is very old & nearly blind. It would give him great pleasure to send it to you. May I say (I am off again soon) that you will accept it?

Yours sincerely

W. O. Rieppel.
